

# Open Source Used In Prime Home Plus v 6.0.0.1

## **Cisco Systems, Inc.**

[www.cisco.com](http://www.cisco.com)

Cisco has more than 200 offices worldwide. Addresses, phone numbers, and fax numbers are listed on the Cisco website at [www.cisco.com/go/offices](http://www.cisco.com/go/offices).

Text Part Number: 78EE117C99-92729748

**This document contains licenses and notices for open source software used in this product. With respect to the free/open source software listed in this document, if you have any questions or wish to receive a copy of any source code to which you may be entitled under the applicable free/open source license(s) (such as the GNU Lesser/General Public License), please contact us at [external-opensource-requests@cisco.com](mailto:external-opensource-requests@cisco.com).**

**In your requests please include the following reference number 78EE117C99-92729748**

/\*

\* Arc4 random number generator for OpenBSD.

\*

\* This code is derived from section 17.1 of Applied Cryptography,

\* second edition, which describes a stream cipher allegedly

\* compatible with RSA Labs "RC4" cipher (the actual description of

\* which is a trade secret). The same algorithm is used as a stream

\* cipher called "arcfour" in Tatu Ylonen's ssh package.

\*

\* Here the stream cipher has been modified always to include the time

\* when initializing the state. That makes it impossible to

\* regenerate the same random sequence twice, so this can't be used

\* for encryption, but will generate good random numbers.

\*

\* RC4 is a registered trademark of RSA Laboratories.
